

Dear FCC, I am wanting to give you my own thoughts of what you are wanting to do to K-Love radio station. I first of all don't think this is very fair to do to people who listen to wholesome music. We are not asking for the moon here, but we are asking to be treated fairly with the music that we , as Americans, choose to listen too. I would usually feel , in matters like these, not to be on either side .But i must speak my mind in case of other christian stations that may have to put up with this kind of situation. I do listen to all the christian stations on FM and i would feel like my rights are being violated if you were to just move my stations and I would not have the listening pleasure that i enjoy now. I also wish you would take my children into consideration , i have a teen , i want him to listen to decent music, which I get from K-love and other stations and I really don't want you to ruin that for my family. I love it that my children aren't hearing about the CRAP of todays music. I seriously hope you reconsider this issue as I personally think you would be making a huge mistake. Why is it that it seems that only the christians in this fine country are always on the defense because we always seem to value , what we may lose. I am tired of losing . If you want further comments from my family or friends about this issue , please feel free to contact us by mail and we will give you further details and comments about how we feel . Thanks for your time. I hope this helps in your decision . God Bless, Samantha Bryant
